Connecting Bristol

Co-creating a smart city

- UK's 10th largest city
- Diverse, vibrant, international
- Population of 454,000
- 187 countries of birth
- Over 91 languages spoken
- Over 45 religions are practised

Smart & Sustainable

- Delivering range of initiatives
- UK's #1 Smart City 2017
- Smart + Sustainable – aim to be zero carbon by 2030
- In January 2019 launched ambitious co-developed One City Plan
- Describes where we want Bristol to be by 2050, and how city partners will work together to create a fair, healthy and sustainable city.

BRISTOL ONE CITY

REPLICATE Programme

Co-funded by the Horizon 2020 Framework Programme of the European Union

Aim: **improve quality of life** by **working with people** to **explore how technology could benefit their communities**

- Save money on energy bills
- Lessen environmental impact
- Explore new modes of travel
- Reduce energy use

The Bristol Approach

Co-funded by the Horizon 2020 Framework Programme of the European Union

Citizen Co-creation

Co-funded by the Horizon 2020 Framework Programme of the European Union

Delivery partner:

KWMC
KNOWLE WEST MEDIA CENTRE

- Community Champions and Engagement Group engaged to co-design, steer & deliver project
- Co-created Mobile Future Home, damp sensor & air quality sensor
- Champions supported 37,000+ engagements – included diverse 'hard to reach' groups
- Greater community trust, project ownership and engagement

“… the most important task for a city is not to predict the future of technology and hope for the best—it is to shape its own future through thoughtful use of technology”

B. Green, The Smart Enough City 2019

Thank you for your time
