INTERNATIONAL
YEAR OF LIGHT
2015

Barcelona invites you to take part in southern Europe's leading mineralogy event

With more than 12,000 visitors and 120 exhibitors from 17 countries, Expominer is the top event for the sale and promotion of minerals, fossils and jewellery.

With 6,000 sq. m of space to show your products, it is an ideal occasion for mineral-related entertainment and popularisation. Exhibit at Expominer from 13 to 15 November.

Gain exposure to new markets and position yourself for the Christmas campaign.

To participate as an exhibitor please fill in the online registration form at www.expominer.com

Send us the form by e-mail to: expominer.ventas@firabarcelona.com

Novelties

This year's Expominer will include two new areas: Handmade and Gemotherapy.

Specialised exhibitors, innovative activities and exclusive academic presentations that will draw new audiences and opportunities to your business.

An extensive programme of activities

Expominer provides an excellent platform for knowledge dissemination and exchange through a varied programme of activities targeting professionals and visitors.

An exhibition of Ancient Egyptian jewellery, previously unseen pieces from private collections, Handmade and gold-prospecting workshops, a fluorescence tunnel... and contests and guided tours that will help you generate new customers and contacts.

GEMOTHERAPY

The best promotion campaign

As an exhibitor, you will be part of an effective, original communication campaign rolled out in the communication media, Internet and social media, with a comprehensive coverage targeting an audience that is interested in this sector. Your participation in Expominer will also give you access to an extensive database of buyers, schools and collectors from around the world.

International Year of Light

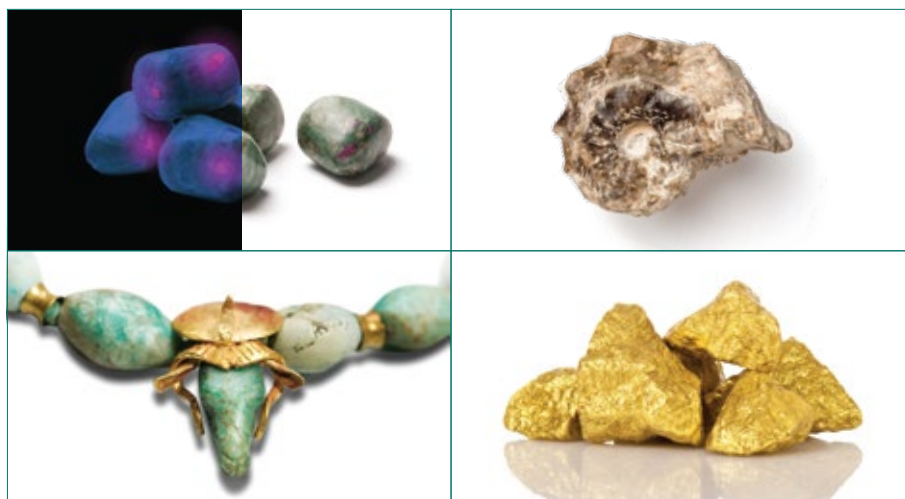

This year's Expominer will take part in the celebrations of the International Year of Light, organised by the Ministry of Economy and Competitiveness, the CSIC and the Spanish Optical Society. Its goal is to make society aware of the importance of light and its associated technologies in essential areas such as energy, education or health.
