

Designing the future - Urban Living Labs

Dr. Edna Pasher, co-founder
and chairperson of the Israeli
Smart Cities Institute (ISCI)

SMARTCITY
EXPO WORLD CONGRESS

Brief description:

- Design and development of the city towards the future, through citizens and decision-makers engagement in the form of open, cross-border innovation. This will be done by building an active urban labs that will focus on the strategy and specificity of each city and will enable actual action by experimenting.

Previous experience at SCEWC:

I have been a speaker since the beginning, already 7 years

Discussion points

What is the business model of living labs?

What is the importance of living labs network?
