Laia Mogas Soldevila is a doctoral candidate at the Interdisciplinary PhD at TUFTS University, and a Research Assistant at the Biomedical Engineering SilkLab, focusing on biomaterial-based product design and fabrication. She was a researcher at MIT Media Lab focusing on biologically-inspired material systems. She completed her Architectural diploma minoring in Visual Arts at the Polytechnic University of Catalonia, School of Architecture (UPC-ETSAV). In 2010-2011 she was awarded research grant to pursue the 'Master of Science in Architecture Studies' at the Massachusetts Institute of Technology within the Design Computation Group.

**Jorge and Laia's** research contributions have been published in scientific journals and shared in international conferences such as WAF, MRS, IASS, eCAADe and ACADIA. Her work has been exhibited at the MIT Museum in 2015, the MIT MediaLab in 2014, the Radcliffe Institute for Advanced Study at Harvard University in 2014, the Lisbon Architecture Triennial 2013, the Istanbul Design Biennial 2012, and the Pompidou Center in Paris as part of Advances in Architectural Geometry Exhibit 2012.
