

- Creating networks with the European organizers of the Circular Economy Hotspots: a series of virtual sectorial dialogues

The Department of Territory & Sustainability and ACCIÓ have collaborated on the initiative “Circular SMEs across Europe, good practices from Barcelona to Bottrop”. This project consists of a series of virtual dialogues on the circular economy, with the aim of diffusing successful circular economy projects from SMEs, facilitating exchanges between companies, and promoting the Circular Economy Hotspots. The cycle’s first dialogue will take place on Friday 23 April.
