# The great night of the chemical industry

**At Expoquimia26, the Gala Dinner will once again bring together the main businessmen and executives of the chemical industry, as well as prominent personalities from the institutional, social and economic spheres.**

This exclusive event will bring together 700 people, allowing companies and entities to invite their most relevant customers and stakeholders.

Consolidated as a prestigious public relations event, and after the success of the 2023 edition, in which 600 people gathered, Expoquimia26 will once again be a unique opportunity to highlight the importance of a key industry that supplies 98% of the productive sectors and plays a crucial role in sustainable development.

# Gala DINNER

The event will take place on **June 3, 2026** in the emblematic Oval Room of the **MNAC (Museu Nacional d'Art de Catalunya)** in Barcelona, y will be attended by executives from the main companies and chemical and process industry associations, encouraging networking at the highest level.

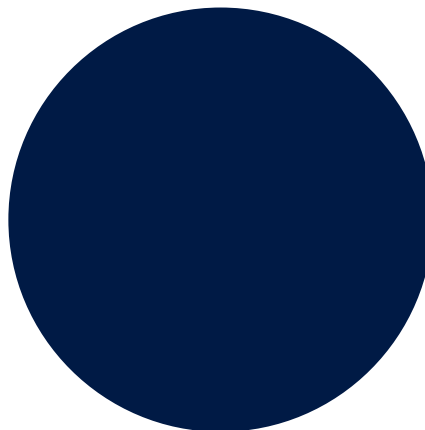

The event will include the intervention of **Katja Scharpwinkel**, current **Vice President of the European Chemical Industry Council (Cefic)** and **member of the Executive Board of BASF SE**, as guest speaker. Prior to the Gala Dinner, a meeting will be held with the participation of the main executives of the companies and entities of the Spanish chemical sector.

In addition, during the evening, the **Best in Class** awards will be presented, which will recognise the 5 most innovative and transformative projects from various industrial sectors, which will be presented at the **Expoquimia Industry Showcase** and the **Equiplast Rethinking Plastic** during the show.

We invite you to take part in the only social event of its kind in Spain. The **Expoquimia 2026 Gala Dinner** is the perfect opportunity to raise your company's profile, invite your customers, expand your network and achieve high-impact brand visibility.

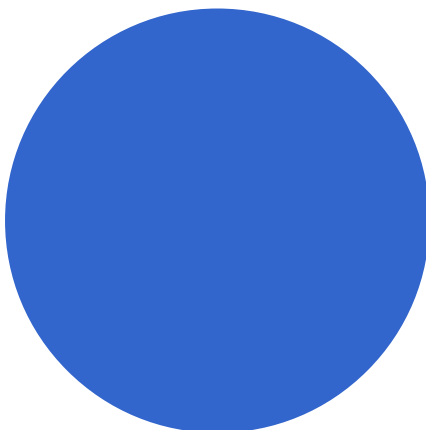

## EXPOQUIMIA '26

## **A gala opportunity for your company**

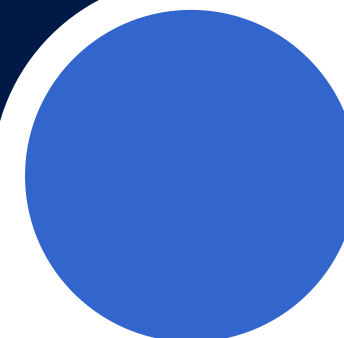

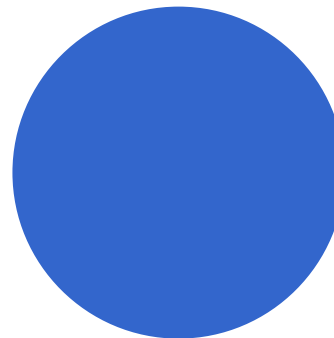

The Gala Dinner is one of the most prestigious social gatherings in the industry. A unique occasion to invite your clients, generate new connections and project your brand among industry leaders in a relaxed, exclusive environment full of opportunities.

## A privileged location in a unique and singular space

- The **Museu Nacional d'Art de Catalunya (MNAC)** is located in the Palau Nacional de Montjuïc, built for the 1929 International Exhibition. It houses the best collection of Romanesque mural painting in the world, as well as works by the most representative artists of Catalan modernism, Gothic art and the great European painters of the Renaissance and Baroque periods.
- The **Oval Room of the MNAC** is one of the most iconic spaces of the institution. Its dimensions make it a **peculiar and emblematic space**, and it is one of the most popular rooms for hosting large social events.

## REPOSITIONING OF THE TRADE FAIR

Expoquimia, the international chemistry event with more than 50 years of history, evolves and presents a new vision. After the turning point of the last edition in 2023, we take a step forward to reinforce the representativeness of the sector at national and international level, and to show the wide and relevant role of Chemistry in the Process Industries.

### FROM CHEMISTRY TO PROCESS

We are amplifying and diversifying Expoquimia in every sense: in terms of target audience, interest groups, technologies, collaborative opportunities, etc.

A move that allows us to position ourselves as a more innovative, versatile show that is aligned with the industry's broader trends and challenges.

### INTERNATIONAL AREA OF INTEREST: **MEDITERRANEAN ARC**

We amplify and diversify Expoquimia in every sense: in terms of target audience, interest groups, technologies, collaborative opportunities, etc.
